

Project

Mall Kelapa Gading, Phase 5, Kelapa Gading, Jakarta

The original Mall Kelapa Gading was completed in the northern part of Jakarta in 1990 with a total retail space of 32,000 square metres. After several extensions, it had entered the ranks of the largest shopping malls in the city.

A further addition and upgrade executed by BAM Decorient from 2006 to 2007 transformed the family mall to a sophisticated shopper's haven catering to the most discerning consumer tastes.

**Location**

Jakarta, Indonesia

Client

PT Summarecon Agung Tbk
