

Quality

PT BAM Decorient Indonesia aims to be the preferred choice of partner for clients, employees and suppliers in all market sectors in which it is active.

BAM Decorient quality policy is to define and meet quality requirements, and to actively promote continuous improvement in all aspects of the company's business. This policy is put into effect through a formal system of quality management as described in *Decorient Management System*.

The *Decorient Management System* plays a key role in the company's business, its objective being the delivery of quality projects that fully meet requirements as specified by the client.

BAM Decorient intends to achieve this objective through the implementation of the Decorient Management System, a system for which improvement is constantly being sought and applied to ensure that it continually delivers optimum results.

The system is certified to the international quality management systems standard ISO 9001 : 2000.
